Summary

Computer Science graduate and Flutter Developer with hands-on experience building scalable mobile applications using Flutter and Dart. Skilled in REST API integration, Firebase integration, and Clean Architecture, with a strong focus on writing clean, maintainable code and delivering high-quality user experiences.

Technical Skills

- **Mobile Development:** Flutter, Dart
- **Architecture & Principles:** Clean Architecture, SOLID Principles, OOP, Clean Code, Design Patterns
- **State Management:** Bloc, Cubit, Provider
- **Networking & APIs:** REST API, Dio, HTTP
- **Backend & Database:** Firebase (Auth, Firestore, Storage), Hive, Shared Preferences, SQL
- **Tools & Technologies:** Git, GitHub, VS Code, Android Studio, Google Cloud Platform
- **Soft Skills:** Problem-Solving, Team Collaboration, Attention to Detail, Fast Learner, Communication

Work Experience

- **iSchool — Remote — Coding Instructor & Mentor | April 2026 – Present**
  Selected for the position upon passing the evaluation phase to instruct students in programming fundamentals.
- **Freelance — Remote — Mobile Application Developer | April 2026 – Present**
  Developed and delivered scalable, cross-platform mobil e solutions including the Eduon LMS platform.

Projects

Diety App — Fitness & Health Mobile Application GitHub Link
- Developed cross-platform Flutter app generating personalized fitness and diet plans; validated by over **50+ users**.
- Built and trained 1D CNN model in Python for personalized exercise plan generation using **100+ training samples**.
- Deployed ML model via Flask API and integrated with Flutter.
- Implemented **4+ core features** including workout, meal planning, progress tracking, and meditation.
- **Technologies**: Flutter, Dart, Firebase, Python, Flask, Machine Learning.

Eduon — Educational Platform (LMS APP) GitHub Link
- Developed a cross-platform LMS app providing structured learning paths and roadmaps.
- Integrated YouTube API for in-app video streaming with real-time progress tracking.
- Engineered FCM & WorkManager background notifications with secure Firebase Auth.
- Built a community hub integrating 8+ tech orgs (IEEE, GDG) to boost user engagement.
- **Technologies**: Flutter, Dart, Firebase, BLoC, YouTube API, FCM, WorkManager.

Movie App — API Integration & Dynamic UI GitHub Link
- Developed scalable movie app with 8+ responsive screens, dynamic UI, and real-time API integration.
- Applied Clean Architecture for scalable and maintainable apps.
- Integrated TMDB REST API using Dio to fetch **1000+ movies dynamically**.
- Added embedded YouTube playback supporting **full-screen video previews** for movies.
- **Technologies:** Flutter, Dart, flutter bloc, Dio, Hive, YouTube Player Flutter.

News App — Responsive News Application GitHub Link
- Developed Flutter news app with **6+ categories** and responsive UI using Flutter ScreenUtil.
- Integrated REST API using Dio for real-time news fetching with local caching via Hive.
- Applied Clean Code principles and Flutter Bloc for state management.
- **Technologies:** Flutter, Dart, flutter bloc, Dio, Hive, Flutter ScreenUtil

Education

Bachelor of Science in Computer Science
Faculty of Computers and Artificial Intelligence, Benha University - Benha, Egypt **2020 - 2024**
Graduation Project Grade: **A+**

Professional Development

- **Mastering Clean Architecture & SOLID Principles** — Usama Elgendy
- **Flutter Master Course: From Zero To Hero** — Usama Elgendy
- **The Ultimate Git & GitHub Course** — Usama Elgendy
- **Dart Programming & OOP for Absolute Beginners** — Usama Elgendy
- **Flutter & Dart Full Development Diploma** (2024) — EraaSoft
- **Flutter & Dart Complete Development Courses** (2023) — Udemy, Tharwat Samy
